# POWERLINE

● This month we bid farewell to Game Master Howard Phillips, who is leaving Nintendo of America Inc. to take a new position as Executive Producer of Video Games and Learning Products at Lucasfilm Games. Howard has lots of fans here and elsewhere in the world of video games, and we at Nintendo will miss him and his signature bow tie.

Lucasfilm is one of our licensees, though, so now we'll have the inside track on Lucasfilm games! Good luck, Howard.

● In the past, Howard kept you up to date on what's going on at Nintendo Power. Now we'll have an opportunity to introduce some of the other people who are involved behind the scenes here. In upcoming issues you'll hear from editors, writers, designers and others who have stories to tell about Nintendo Power and Nintendo products.

● There's no need for all of you Howard & Nester fans to worry—Nester isn't going anywhere. It's the

beginning of a new era for him, though, and he'll be back for new adventures in his monthly strip. As you know, Howard often bailed him out of the messes he got into—who knows what kind of trouble he can get into when he flies solo.

● Now on to new business. As you thumb through this issue, you'll notice that most of the review pages are devoted to **Battletoads**. That, along with last month's comic strip, might make you think we've gone a little bit Battletoads crazy. Okay, maybe we have, but you'll understand why when you take a look at the review. The game is hot! The characters are completely new and "toadally" cool, and it's super-challenging to boot. You'll probably wish we'd used all 100 pages to cover it!

● Don't miss our Special Report on the **Super Nintendo Entertainment System**, complete with pictures of the system hardware! The Super NES will be officially announced at the summer Consumer Electronics Show this month, but we wanted to give you readers an advance look at its incredible components. And if you think they look great, wait until you see them in action this fall!

● You still have time to get in on our Nintendo Player's Guide Program. Don't forget to respond by July 15.

### POWER MEOWER!

**M**y cat Millie is not one for games, but that's only if you don't count Nintendo games. When she hears the TV go on she comes running like a bolt of lightning. Some of her favorite characters are Mario (who she likes to watch jump up and down on the screen) and Mega Man (who she also likes to watch jump up and down on the screen). Currently, I'm trying to teach her how to use the Power Pad, but for now she just prefers to sleep on it. If I lay my NES Advantage on the ground she will come over and lie down on top of it. So far she has reached Level 2 on Willow. I couldn't enclose a picture of her playing since she was sleeping last time I checked.

**Ben Sherman  
Sudbury, MA**

### PEE-WEE VS. SPACE ALIENS

**I** am 57 years old, and I play all of your adventure games. I have 16 cats and they all love to play along with me. But there is one kittle who, since I started playing StarTropics, insists on helping me. I can tell you that I have had to start over umpteen times because of her "help." Her name is Pee-Wee, and she loves the bowling ball in StarTropics. People may think that

### YE CATS! (DOGS, BIRDS, AND TURTLES, TOO!)

Well, we asked for it. We were stampeded with herds of mail Birds, Dogs, Turtles, Cats, Bats, Rats, Gnats, and even a Wildebeest were all entries in our pet request. Some of them are even better at Nintendo games than their owners!

the NES is just for kids, but I believe that it's for senior citizens and animals, too.

**Carole Peterson  
Troutdale, OR**

*It looks like Pee-Wee's been invaded by the StarTropics aliens. Just look at those eyes!*

### SCREEN-SMEARING SPANIEL

**I** have recently discovered that my new puppy Bogey has shown a liking for Mega Man III and Tetris. Whenever a lot of fast music plays or a loud sound in a game occurs, he jumps up and gets real close to the screen. Sometimes he even licks it! I have discovered that he likes to have his pink and white blanket when I play. I've enclosed a picture of him getting ready for me to play.

**Scott MacDonald  
Lake Oswego, OR**

### WANTED: MARIO

**O**ur kitten started playing at a young age. As soon as he could jump up on the table, he's been watching and hoping he could nab Mario one of these days. Of all the games we have, Super Mario Bros. I, II, and III are his kind of action. We are in our seventies and yet can talk with all the kids who are neighbors. We find your games a lot of fun and they keep us young.

**Mr. and Mrs. Wally Swanson  
Glendora, CA**

Many readers named their pets after Nintendo characters. Some of them include: Weird Ed the Hamster; Samus the Goldfish; Nester the Toad; and Scrooge the Duck.

## KOOPA GETS THE UPPER HAND

I've got a bird named Koopa. I named him that because I really like Super Mario Bros. 3 and also because he is just as mean to people as Koopa is to Mario, Luigi, and Princess Toadstool.

**Jackie Wall  
Lincoln Park, NJ**

*Great picture, Jackie! It looks like Koopa's got the head-stomping trick down pretty well. Now see if you can train him to shoot fireballs.*

## TURTLE TALK

I've had my turtle for a year, but I really haven't named it. Everyone calls it something different. Every time I would play Nintendo games in front of my turtle, "she" would come out of "her" shell and watch. I finally decided to call "her" Wendy O. Koopa after the Koopa Kid.

# ART BEAT

At Carambal Our mailroom is a fiesta of color! The art that our readers put on their envelopes is so good that we decided to share it with you. Whether you are an accomplished artist, or just a Mario fan who likes to draw, make our mailroom staff happy and brighten up your letter. These envelopes are some of the best we've seen yet, and we want to see more of them. Remember, if the Post Office can't read the address, we won't get it, so be creative and legible. Although we can't promise that you'll see your envelope in Nintendo Power, we'll do our best to showcase the most creative ones when we can.

## TURN IN YOUR PARENTS!!

We've been hearing rumors about parents who are taking over the family NES to play games like Tetris or The Legend of Zelda. So far, these are unconfirmed reports, so we need your help! Turn in your game-crazy parents to us by sending letters or photos (try to catch them in the act!), and we'll print the most-wanted list in an upcoming issue of Nintendo Power. Adults, this is a kid's-only column! You'll get your chance soon!

# BATTLETOADS™

This is it! We've been psyched about the Battletoads since we first heard about them! Now that Rare and Tradewest are ready to cut loose with Battletoads, only Nintendo Power will give you complete maps and Toad tactics to take you to the Dark Queen's Tower and beyond!

## The Story Thus Far...

Aboard the SS Vulture, the Battletoads and Professor T. Bird are halfway through the four light-year voyage to take the Terran Princess, Angelica, back to her home planet. To break the monotony of the long journey, Angelica and Pimple take a joyride in the Toadster. But before they know what hit them, the Dark Queen's

flagship Gargantua swallows them up, Toadster and all, and whisks them off to Ragnarok's World. Where does that leave the rest of the Battletoads crew? Hopping mad! With the trail still warm, the SS Vulture tracks the Gargantua to Ragnarok's World and the remaining two Battletoads, Zitz and Rash, storm the surface. Their mission—pound some pork, rescue their pals, and punish the Dark Queen!

# Here's The Waydigo!

From the surface of Ragnarok's World, to the Dark Queen's Tower, the Toads have a "toadaily" rad

adventure ahead of them. You'll have to conquer a total of 12 Toad torturing levels to reach the Dark Queen and rescue Angelica and

Pimple. Each world is different from the one before it, and presents new challenges and moves to master.

# Mad, Bad And Crazy!

With all the super moves the Toads have, the bad guys don't stand a chance. The Big Bad Boot and Kiss My Fist moves will enable the Toads to mulch, mince, mutilate, man-handle and maim the Dark Queen's monstrous menagerie (and that's just for starters). In most cases, executing a special

attack is automatic after three or four punches by repeatedly pressing the B Button. In later stages, special moves are standard fare. The special moves are well animated and add to the Battletoads' character, plus you get more points for defeating enemies when using them.

## TWO TOAD MODE

"Rash is the name, panging like is my game. My muscles make everything happen, whether we're battling badasses or leaping between pits."

"You Zitz, Toad brother. Leave it to me to put a toadaily terrific attack!"

Battletoads' two-player simultaneous mode compounds the challenge of the game. For one thing, the players can interact with each other, which can be detrimental to your progress (even if it is fun sometimes). You don't want to get too close to your buddy while you're in combat or you might accidentally clobber him! Acting as a team is essential when you're attempting jumps in the two-player mode. Both players must make their leaps at the same time, or one may be left behind or be unable to make the jump. The two Toads you can control, Rash or Zitz, have different personalities, but in terms of game play their abilities are identical.

# Ragnarok Canyon

"Let's get ready to hit the dirt and pound some pork!"

The barren surface of Ragnarok's World is patrolled by the Dark Queen's swine-troopers known as the Psycho Pigs. These basically brainless pushovers are easily pummeled into pork chops with a special punch or whack with a Walker's leg. Ragnarok's World is also inhabited by dangerous Dragons, which can provide an amusing and useful aerial ride if you manage to capture one.

## SHADOW BOXING

You can judge the position of flying or floating objects by watching their shadows. This is especially useful when battling the Dragons.

START

## POUND SOME PORK

Hit 'em fast and hit 'em hard—that's the key to defeating all of the enemies you meet. The Scarlet Psycho Pigs fall after a single flurry of fisticuffs, whereas the Silver Psycho Pigs are a bit tougher.

Use Turbo, if you have it, to punch with super speed. It's easier to execute Special Attacks, too.

## GET A LEG UP

Walkers materialize in a bip of sound and light. These stilt-legged machines are simple to demolish. Once you've trashed a Walker, you can use its leg as a weapon (cool!).

Kneck out the Walker before it can kick you.

Stand next to the leg and press B to pick it up.

The Walker's leg is equal to a Special Attack in strength, but you don't get as many points for using it.

## FLYING FROG FOOD!

At set positions in the Toad's trek, swarms of flies will appear. To replenish your Toad's stamina, slurp down these treats using your long Toad tongue. These bugs don't stand a chance against the zapping Toad tongue action.

Face the flies and fire your tongue by pressing the A Button. Yum yum!

## TAKE OUT THE TRASH!

During close combat, if you get right on top of an enemy, you can pick him up. Then toss him off a cliff. You can also pick up your partner and carry him—but watch where you drop him!

## FREE FROG

Use the shadow to judge the position of the 1-Up before you jump for it. If you're still riding the Dragon, it's easy to capture the 1-Up.

If flies are on the screen, you can use your tongue to collect the 1-Up.

Cats may love the lives, but Toads only get those, unless they happen to collect a 1-Up or two.

If you're in the Mother of All Walkers, and it's not too happy about how you treated its youngsters.

## SPECIAL TIP!

### FLIGHT OF THE FROG!

When you run into a Dragon, hit it once to knock it out of the sky. Quickly leap over to the fallen Dragon and hop onto its back. You'll be able to ride this steed to the end of the level.

As you ride the Dragon, you can make it spit fire by pressing the B button.

Press the B button to make the Dragon perform a wing-assisted hop.

## TRASH THE TALL WALKER!!!

When you battle the Tall Walker, the action will switch to a "Walker Cam" viewpoint where you'll see what it's like to be on the receiving end of a Toad attack. You'll also notice the Walker's laser cannons are pointed right at you! You still control the Toads as before, but this machine will not "Kiss Your Fist." You'll have to find another way to defeat it...

If you stay to the left or right of the screen, the Walker can't hit you.

One of the Walker's shots will be a healer.

Pick up the healer and retreat temporarily to the side of the screen.

The Walker will fire again. As soon as it does, get in position....

If you timed your throw correctly, and kept the stone right at it....

The Walker's view screen will crack. Hit it three times to score!

# Impact Crater

"Hope you like uninvited visitors, Dark Queen, 'cause the Battletoads are droppin' in—with a vengeance!"

The Impact Crater plunges into Ragnarok's World to a depth of two miles. The Toads' descent will be plagued by the Dark Queen's Birds of Prey, Saturn Toad Traps and Retro-Blasters. Watch where you swing; it's easy to smash your pal.

**A START**

## STOMP 'EM FLAT

To defeat the Birds Of Prey and the Toad Traps, get close and wail away. Act fast or the enemies might attack you before you have a chance to get them.

**START**

## RAVENS—NEVERMORE!

The Ravens can sever your life-line with their razor sharp beaks, so defeat them quickly. Once you've reduced them to pillow stuffing, capture their beaks to use as a weapon.

## RETRO BLASTER ATTACKERS

As you approach the Retro Blasters' ambush points, be ready to execute a Wrecking Ball Attack. A properly performed Wrecking Ball will wipe out a Retro Blaster with a single hit.

## WRECKING BALL

Stay near the side of the tunnel until your line is straight up, and you can execute a Wrecking Ball Attack (press B to cut loose).

## DONT SHOO, FLIES!

Swoop down and eat the flies to replenish your Toad's energy.

**CONTINUE TO A**

**CONTINUE TO B**

## B START

### ELECTRO-ZAPPER OBSTACLE COURSE

Weave between the Electro-Zappers before they close off the tunnel. You'll have to move fast, but don't rush into the Zappers as they appear at the bottom of the screen.

### THE BIRDS

Don't get bogged down by this flurry of feathered foes. Answer them with a barrage of Battletoad punches.

### THREE FLIES

If your energy's not full, be sure to eat the flies here. A Silver Retro Blaster waits ahead!

### SILVER RETRO BLASTER

Use a Wrecking Ball Attack to eliminate the Silver Retro Blaster quickly. It takes a lot to defeat it with regular punches.

CONTINUE  
TO C

## C START

### RIGHT ON THE NOSE

If you don't use a Wrecking Ball Attack to wipe out the Toad Traps, you can hit them in the nose for 500 points a pop.

### FINAL ELECTRO-ZAPPERS

After you pass the first Electro-Zapper, get in the center of the tunnel and press Down. The other Electro-Zappers will pass harmlessly overhead.

TO

TUNNEL

# Turbo Tunnel

"Hurry up

Racers!  
We're  
waitin'!"

Get ready for the wildest ride in your Toad's life—through the torturous Turbo Tunnel! You'll have to ride your Speed Bike through a twisting tunnel of treacherous columns that will become your tombstone if you don't avoid them!

The action happens fast and furious in the Turbo Tunnel. Let your reflexes take over as you guide your Speed Bike through the obstacles. It helps to memorize the pattern, and the directions are called out on the maps. It's a long tunnel and you'll probably have to tackle it many times before you master it. Timing is everything!

Another enemy Sammie will pin you down with his snowballs. Duck under the first snowball and hop onto the short wall to avoid the second.

## WAIT YOUR TURN

Duck behind the walls until three snowballs roll over your head, then advance. Repeat until you reach the.

## FANCY FOOTWORK

Duck under the first staircase, and as soon as you jump onto the upper moving platform, jump for the 1-Up.

## SUPER SLIDE!

Wait until the very last second to jump over the pit.

## WEB-FOOTED WORKOUT

To master this area, go under the first wall and wait for the Hedgehog. Jump over it and run left. As you wait for the left wall to rise, jump over the enemy to avoid it. As soon as the wall is up, move fast or you'll get squashed when it comes down!

## HOT DOGGIN'

Wait until the last possible second and score 10,000 bonus points!

## HEDGE-HOPS

Waiting helps is necessary to make it through the Hedgehogs ahead. Jump over them, run fast and jump again!

## CLEAR THE WAY

Push an ice block against the barrier and stay on top of the short wall until the barrier is broken.

## RIDE THE WILD ROCK

Stay on the platform as it plummets, or it plummets. The longer you fall before jumping, the more points you get!

## TO THE WATER RAPIDS

# Surf City

"Get ready to hang tough Toad, 'cause there's a wet and wild world ahead!"

If you liked the Speed Bikes, you'll love the Space Boards ride in this level. The Boards skip along the surface of the water, but have no real jumping ability. You'll have to watch out for logs, or your Toad will become a piece of jetsem.

## A START

## A 1

Soar off the middle of the waterfall at high speed to catch the 1-Up in the center of the rapids.

## B START

TO B1

Although the speed of the world in this section makes it difficult, you should try to capture the 1-Up in the middle of the river.

These ones are swimming with aces! Although the obstacles bubble forth readily, they aren't that difficult to avoid.

## B 1

## B 2

## AVOID GETTING WATERLOGGED

**A** Weave back and forth between the first set of logs. When you reach the moving logs, try to stay at the river's edge and hold back until it's clear to advance.

The map shows the direction the obstacles are moving. Stay away from the logs by hanging back on the opposite bank.

**B** The Whirlpools look more menacing than the logs, but can be avoided in the same manner. Stay in the edge of the stream, away from the direction of the Whirlpool's movement.

### INVADERS!

Kill as many of the invaders as you can before they steal your Life Meter boxes. You'll have to act fast to get all four invaders.

### WALKERS!

Soft City Walkers are taller than the ones on the surface, but still only take three hits to trash. Be sure to grab a log to use as a weapon.

### FLY FEAST

Edge forward until the flies come to you, then scarf 'em up. You'll never see the last or they will spoil your feast.

**BIG BLAG,  
THEN

## BEAT BIG BLAG

Big Blag is the king rat of the Dark Queen's rodent army, and he loves to smash things with his spiked tail. He also enjoys throwing his weight around, and will squash your Toed flat with a super blubber slam. When he jumps high, make yourself scarce!

To defeat Blag, try to get him against the side of the screen and pummel him mercilessly with a Walker's leg. He can take a lot of punishment!

SNAKE PIT!**

# Snake Pit

"They say snakes are a Toad's worst enemy... I say bring 'em on!"

The Karnath's Lair has to be one of the most difficult parts of the Toads' journey. You've got to shimmy up giant scaled serpents, known as Karnaths, as they slip and slide over a pit full of spikes, to make your way up to the exit doors.

## STAGE A

TO B

START

## STAGE A

Since there's no time limit in the *Snake Pit* mission, you can spend a bit of time in the first pit mastering snake handling. Jump on the first Karnath and try running ahead on its back. Climb up it when you can. Don't worry about falling, there's nothing here that can hurt you—yet!

To get on a serpent, jump up and let it pass below you.

When a snake starts moving vertically, jump on and climb up.

When the viper you're riding drifts into a hole, leap onto another one.

## STAGE B

## STAGE B

### POINT A

Head your position here until the front end of your animal appears below, then jump onto the snake.

### POINT C

As the snake moves from right to left, you'll have to jump quickly but continuously over the 3 spiked balls.

### POINT E

When the snake has circled under the spiked ball and starts going left, jump up onto it.

### POINT B

From Point A, wait for spikes overhead when you jump left.

### POINT D

Wait for the serpent's head to rise up from under the spiked ball, then jump over the obstacles.

### POINT F

The final reptile races by fast. Don't miss the exit!

## STAGE C POINT A

Hold your position at Point A (right on the edge of the block in the barbed) and jump to Point B when the rest of the snake reaches it.

## POINT B

Face left at Point B so you don't fall into the spikes. Then climb up when the serpent starts to move upwards.

## POINT C

Wait at Point C until the snake goes under the spikes to the right and comes back. Then spring up as the beast climbs.

## POINT D

Hang out at Point D until you run out of snakes; then you'll drop into it below. Be sure to take the snake's movement into account when you're jumping or trying to hold your place.

# STAGE D

## POINT A

You'll have to hop to it to make it over the platform in time to reach the first barbed as it moves vertically against the left wall.

## POINT B

Make a big jump here and hope you have enough hang time to catch the next reptile ride.

## POINT C

Hang loose at Point C until the snake's tail comes close, then drop down.

## POINT D

From Point D, climb the serpent till you almost reach the spikes above. Jog in place until the tail comes over and over right as you fall.

## POINT E

Wait at Point E and jump at the last possible second as you clear the spiked ball below. Once you've passed it veer left. As soon as you land, get ready to jump over more spiked balls.

## POINT F

You have to be ready to make the transition at Point F from the left side of the snake to the right side. You can only safely reach the end from the right side.

# Elevator Shaft

"This isn't a free ride! I'd rather take the stairs...!"

The Elevator Shaft is indeed a challenging climb, and it will really test your jumping ability and timing. At least you don't need to ride another wacky vehicle in this level!

## DON'T GET SLIMED!

If you leave the pipe you can destroy the slime easily. Otherwise, you'll have to avoid their deadly touch as you make your way across the platforms they guard.

## TROUBLESOME 1-UP

Although it's tough to get, you'll probably need this 1-Up. Go up through the gap and then head to the left side. You'll fall back down onto the platform with the 1-Up so it. From there, jump to the spring platform when the gap is over your head. Now spring upwards.

## THROUGH THE GAPS

When the electric barrier shuts off, quickly jump through the gap. You don't have a time limit, so wait for a good opening.

## JUMP AND SQUAT

Duck and wait for the energy projectiles from the robot to pass you by. Make for the platform and dash again when the projectiles start firing. Toss the Bullet when you're close.

## SNOT BALL SPIGOT

Watch the timing of the Snot Balls as they shoot out of the wall. You'll have to jump quickly over them to make it through. Although you can destroy the Snot Balls with a pipe, this will only slow you down and ruin your timing.

## RIP UP THE PIPES

At a few points in your journey, you'll be able to rip pipes off the wall. Be sure to grab the first one and use it on the approaching enemy.

## DOUBLE JEOPARDY

Stay on the lowest platform until the Green Gas, then hop onto the middle one and hope for an opening to the upper platform. If none comes, be ready to leap back down.

## SUCTION VALVES

You're faced with a double threat here: poison gas and hissing suction valves. When the robot passes, don't hesitate, but just start climbing.

## RACE FOR LIFE

When gas and energy projectiles fire simultaneously, that's your signal to beat it up to the next level. Get ready to duck!

## HOW TO DEFEAT ROBO-MANUS

Robo-Manus starts out sluggish, but soon he'll whip out a machine gun and pepper you with lead. Hit him as much as possible at the beginning, because he'll speed up as you damage him. When he jumps up, move in to where he'll land and hit him when he does!

## TRIPLE THREAT!

Each of the three platforms is guarded by a robot enemy. Time your jump up and around the edge of the platform as you're ready to beat the robot as soon as you land. Hit 'em quick and hit 'em hard!

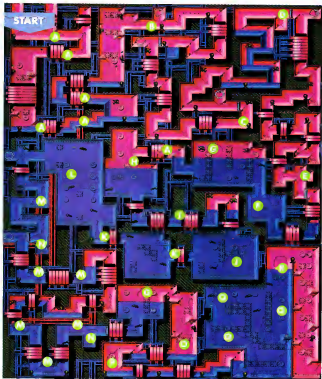

# Gargantua Ducts

"It's time to make like plumbers and clear out this maze of slime filled pipes!"

The only way into the Gargantua is through a labyrinth of deadly pipes. The Toads will have to outrace giant gears, precision swim between dangerous spikes and battle frog-eating fish to make it through.

TO THE GARGANTUA!

## A. BUST THE 'BOT

Approach the robots (marked on the map by A) with caution, flushing water their electric projectiles. When you're close, grab them and smash them against the ceiling. Be careful, sometimes the robot's position is concealed!

## B. RUN TOAD, RUN!

Those giant gears aren't just decorations, they're traps! The gears will roll after your toad and will grind him unless you beat them to a certain point.

Stand against the wall blocking off the passage and the gear will drop into the pit and deactivate.

## C. JUMP AND DODGE

When you run out of moving room, wall-hack a second exit as the gear approaches, jump up. The gear will disappear when it hits the wall.

## D. SWIM UP-STREAM

To reach the end of this gear's run, you'll have to hop up, against the current.

## E. HANG OUT

At the end of this gear's run, duck into the alcove above the floor wall and the gear will continue inward and vanish.

## F. SHORT CIRCUIT THE EEL

All the electric eels have to take them out. The move is tricky. You have to swim carefully as you punch.

## G. LEAPIN' LIZARDS!

To leap the spiked barrier, get as close to it as possible and leap straight up, out of the water. Then jump over the barrier.

## H, I, J. RUN DEEP

By not to hesitate as you swim through this hazardous spike-filled area, the faster you swim, the less contact you'll make with the orange hammerhead fish.

## K. A SHOCKING DISCOVERY

Yep, there are more electric eels down below. It's always best to avoid these critters whenever possible, rather than fight.

## L. I-UP, BUT MANY TO GO

Swim near the top of this large chamber to capture a 1-Up. You've still got a long way to go, Toad, and you'll need it!

## M. SKINNY DIPPING

The gears are back, but this time you have to swim away from them! There's no time to lose!

## N. LAY LOW

Duck into the pit with spikes and the gear will pass you by. It takes a steady hand to keep your frog off the deadly spikes.

## O. RUB OUT DUCKS

Don't try and play with those oversized bath toys! It's better to just avoid the first duck by jumping over it.

## P. RUBBER DUCK DUO

You'll have to do some heavy jumping to avoid the ducks and help are moving right. You can then attack them from behind. When they are temporarily stunned, grab by foot.

## Q. JAWS, TOO!

A pair of frog-eating sharks will attack here. Beat them back with a hammerhead fish.

## R. WHAT'S UP, DUCK?

Hold the shorts off they and so soon as the duck moves out of the way, high-tail it up and punt him!

## MAKE TRACKS, TOAD!

You begin the race with a slight head-start on the hypno energy orb, and you have to keep that lead until the end. The Clinger Winger cycles are slightly faster than the orb around corners, so you need to hit them fast.

## BATTLE THE HYPNO ORB!

When you reach the end of the line, you'll have to fight the hypno orb. It's touch is deadly unless you hit it with your fist. Punch the Orb repeatedly and don't let up for a minute. Try to get it against the edge of the screen to really tag it. If you pick it up and toss it, be sure to get out from under it as it falls. If you're persistent, you'll win.

# The Dark Queen's Tower

"We'll do the twistin', and the Dark Queen will do the shoutin'! Hear that, Dark Queen? We're comin' for you!"

As you circle and climb the cylindrical tower, the view will stay on your Toad and the Tower's features will rotate in and out of sight. This effect gives the entire stage a three dimensional feel, and makes the game play deadly!

## CLOUD CREATURES

The Cloud Creatures attack in a spiralling pattern. Stay in the middle of the tower when one is near and aim a Red Ball to cleave it.

## PUT A SPRING IN YOUR HOP

Take your time when you reach the spring platforms. Making an accurate leap can be tricky when the springs are giving you an extra boost.

## SEARCH OUT THE STEPS

As you run around the Tower, the other side will scroll into view. If you don't see steps leading up, circle the Tower until you find them.

## STICKY SITUATION

Watch it when you jump up off of this platform. A Spiked Ball orbits this level of the Tower at super high speed!

## KEEP ON HOPPIN'

Some platforms will wobble if you stand on them. Jump repeatedly to keep the platform in one place. If this platform steaks, you'll be in range of the heaving Spiked Ball.

## FORECAST: CLOUDY

This time, a Grimace Cloud Creature attacks with a bubble of poison gas. Just try to get past him fast—the screen will scroll sideways once if you haven't defeated the monster.

## RACE THE WIND

The storm is again deadly, and your only chance to get live is to cut into it. You can do it!

## SPRING LOADED THRILLS

The independently orbiting platforms are the spring loaded variety. Timing is extra difficult here, because you have to jump squarely on the platform.

## ORBITING PLATFORMS

To add to the challenge, at this point the platforms independently circle the Tower. Timing is essential to using these platforms. Jump up when the moving platform is almost overhead.

## RED STORM DESCENDING

Avoid the two Crimson Cloud Creatures by following them around the tower. They will drop poison bubbles on you, so watch out. You can make it past them without fighting if you hurry!

## FOLLOW THE LEADER

To best avoid the single Crimson Cloud Creature here, follow it around the Tower. When you have an opening, high-tail it higher!

## WAIT OUT THE STORM

When the big red head shows up on the side of the screen, leap for a flag pole and hold on tight. He'll huff and puff, but won't blow you down unless you try to move. Once he's gone, continue.

## HUFF AND PUFF, RED HEAD

Make for the flagpole and hold on as the big red head blows at you. When it stops huffing, step down and over to the lower spring platforms. If you try for the closer one you won't make it.

## JUMP AND JUMP AGAIN

At this point in your ascent up the tower, you will encounter four appearing/disappearing platforms, one above the other. As soon as you jump on the first one, jump straight up as fast as possible.

## JUMP HIGH AND CARRY A BIG STICK

The flag pole is your only chance to continue upwards. Jump up, grab it and then vault up to the next platform, rather than dropping down. The stick will come in handy.

# SUPER N ENTERTAIN M

The Super Nintendo Entertainment System is on the way to U.S. stores this Fall, and it is worth the wait. What can you expect from this new 16-bit machine? How hot is it? This article will answer some of your questions, but others can't be answered until you actually see, hear and play the Super NES™ in person. For example, static photographs cannot reveal the impression of depth that is given by multiple scrolling backgrounds. They say that seeing is believing, and with the Super NES that old adage

really holds true. The brain of the Super NES was designed in Japan at Nintendo Company Ltd. The idea was to make a system that allows more realistic games and greater player involvement. That meant the system would have to handle ultra-sophisticated graphics and sound. The task fell to the 16-bit Central Processing Unit (CPU) which contains 128K RAM and 64K Video RAM for faster processing of game and graphic data. There is an additional 8-bit APU, or Audio Processing Unit to handle the

digital, CD quality sound.

The Japanese version of the Super NES (called the Super Famicom) has been out for almost a year now. The U.S. version is very similar to its Japanese counterpart, but there are some important changes and improvements.

Lance Barr began designing the exterior housing of the Super NES in July of 1990 at Nintendo's Redmond, Washington headquarters. At that time, Lance was given free reign to try out new ideas. "I was working on blue-sky designs," he

# INTENDO<sup>®</sup>

## ENT SYSTEM

said. "With video game systems there really aren't any expectations yet of what they should look like, so design considerations are pretty open. Most people are more concerned with the software that's available for the system." But he did have one directive from the brass at NOA. "They wanted a product that didn't look like a toy," Lance explained. The reason for that is the insides of the Super NES are anything but toyish. The sleek and sophisticated exterior had to fit the image of the complex

16 bit computer inside.

One of the aspects of design that isn't always apparent is what Lance calls "design semantics." The idea is that an object or feature should visually represent its function or give some clue as to its use or importance. For instance, from an early age people learn that sharp objects are dangerous to touch, whereas rounded objects are considered safe and invite touching. With that in mind, Lance designed the top-load bay in the Super NES with classical curving

### Super Control

The Super NES Controllers are curved to fit comfortably in your hands while giving you good accessibility to the buttons, including four new buttons: the Z and Y buttons and a Left and Right button on either side of the Controller. The A, B, Select, Start and cross controller are the same as on the original NES.

lines indicating that here is an area with which you can interact. There was a second consideration for making the curved loading bay—people don't place glasses of soda or bowls of cereal on curved surfaces. Spills are one of the chief service problems for the NES. For the same reason, Lance put the ventilator grill on the back of the Super NES rather than on top. He also made the bottom of the unit flat so it can be stacked with other components, for instance the CD ROM unit currently being developed jointly by Nintendo and Sony.

Even the Controllers were improved from the Japanese version. One of the problems people have found with the Japanese controllers is that they can't differentiate between the four control buttons. Although the Super Famicom buttons were color coded, Lance noted that few people took the time to look down at the controller while playing games. The sense of touch was more important, so he changed the rounded shape of the X and Y buttons to a hollow, dish shape like the buttons on the original NES Controllers. Attention to details like this really payoff for the player.

## The Curves

The Super NES Controller buttons were redesigned so that you can tell them apart by the areas of touch alone. That means you don't have to take your eyes off the action for a second.

# Evolution Of The Super NES™

Some of Lance's early designs would have required a much different printed circuit board and radically altered Game Paks. The super thin-line version gave way to the necessity of having a top-loading Game Pak. Later "crank" versions with a crank lever mechanism to load and unload Game Paks also were rejected. "We wanted something that was simple to use," Lance explained.

## Super Graphics

Although graphics aren't the only consideration when comparing games or game systems, they are the most glamorous aspect of video games. Graphics fire the imagination and allow you to roam alternate universes.

The first and most obvious aspect of graphics is resolution. Resolution is determined by the number of pixels that can appear on the screen at one time. A greater number of pixels translates into higher resolution pictures. In the case of the Super NES, the resolution is a very impressive 512x448. That's almost twice the resolution of most other 16 bit systems. In addition, the Super NES can be connected to RGB monitors or Super VHS TVs using special cables for the best possible pictures.

Pixels are the building blocks of images because each can be a different color. A larger color palette allows more variety for shading

and toning images, and that means more realistic and detailed game images. With 32,768 colors to choose from, the Super NES reproduces more colors than most people can distinguish. Actually, this system can do even more impressive stunts with color, such as Color Layering which allows objects to appear ghost-like while moving across a multi-colored background.

### RESOLUTION

If it's not enough anymore just to have a sharp image appear on the screen. To be interactive an image must appear to behave in whatever manner makes sense to its context. For instance, a car racing away from you must shrink. This is called "scaling". The Super NES is able to zoom in and out on objects, allowing for such intensely real activities as the sky diving sequence in *Pilotwings*.

Movement against a background is standard for almost all video games, but the Super NES handles four backgrounds all scrolling at different speeds. The result is a real

feeling of depth, especially when one or more of the backgrounds are used as foregrounds, seemingly placing your character in the middle distance.

Rotating objects and backgrounds are other impressive graphic features of the Super NES. Not only can you scan 360 degrees of horizon in games like *Pilotwings*, you can also look down at the ground while turning a complete circle. Of course, while you're turning, the scaling feature also increases the size of everything below you. It's important to remember that these features can all come into play

## ROTATION

simultaneously.

Last, but certainly not least, are the Moving Objects or Sprites. On the Super NES you may find as many as 128 Moving Objects on the screen at one time! Super NES Sprites can be composed of 128x128 characters. In comparison, Super Mario for the NES is 8x8 characters. We're talking big bosses here!

## Super Sounds

Video game sound has lagged behind graphics from the start. In large part that has been due to the limitations of earlier systems. No more with the Super NES. It can reproduce the same digital stereo signals used in CDs with all the tonality and richness that you would expect from a recording of

## SUPER CONNECTIONS

Plugging the Super NES through your home stereo results in a new game playing experience called AWESOMER!

your favorite musical group. This also means that actual voices can be reproduced. Real vocals! Imagine a Batman game in which cinema scenes don't have subtitles but the actual voices of Jack Nicholson and Michael Keaton! With the Super NES that sort of realism is possible. The revolution in sound extends to sound effects as well. To appreciate the symphonic richness of the Super NES you'll have to patch the A/V cables through your stereo or stereo TV. And the future sounds even brighter. Already Nintendo is planning to utilize Q-Sound, the synthesized surround sound system.

The next issue will cover the Super Games for this radical new system.

## IT'S ATTENTION TO DETAIL THAT MAKES THE GAME

### PLENTY OF OPTIONS

Mario's game of golf is definitely deluxe. There are more features in this video version of the sport than any other golf game for the NES. There's match play, stroke play, single hole challenges and even a practice mode where you can try each hole before competing. Then, when you're ready for the tourney, you can take on a field of five seasoned pros.

### ANGLE ON THE ACTION

Several views of the course help you decide exactly how to tackle each hole. First you can scan the holes from overhead. Next you can check out the greens for pin placement and slopes. Then, when you're ready to tee off, you'll see the swing from a behind-the-back view. And, when the ball lands, you'll have your eye on exactly how it lies.

# GET SET FOR COMPETITION

Mario's motto for everything that he sets out to accomplish is "be prepared." You can follow through on that motto by setting the game for the best conditions before you take a whack at the tournament prize. Know all of the available options and use them to get ready for the competition that awaits.

### TRAINING

### TOURNAMENT ROSTER

Change the names of your computer-controlled competitors on the tournament roster to add some character to your game.

### CLEAR SAVED DATA

# KNOW THE LIE OF THE BALL

U.S. 2H

### BUNKER BLUES

Some traps are tricky. When you hit a bunker, pull out your wedge and hope the ball's not buried.

### IN THE ROUGH

Bad grass will take a lot of distance out of your swing. Take a look at just how deep the lie is. Then choose a club that will dig the ball out and send it sailing.

If you're aiming for par, you should get onto the green in two strokes under par and then two-putt the green. The best way to do that is to follow the fairway and try for a good green position. There are, of course, other possible lies.

### ON THE GREEN

Every time you reach a green, the pin will be in a new place. That'll force you to approach the same hole with a slightly different strategy each time.

### TREE TROUBLE

If you get caught behind a tree, you'll have to chip around the tree before you work toward to the green.

### FAIRWAY FREEDOM

The best way to get to the green in the fewest amount of strokes is to keep the ball on the fairway, no matter how it is layed out.

# SHOOT FOR BIG MONEY IN THE HIGH-STAKES TOURNAMENT!

While the prize money isn't real, the thrill of winning is. Your goal is to reach the one million dollar mark in as few rounds as possible. You can earn prize money by making your way up the ranks in stroke play or by going head-to-head with another golfer in match play.

## FOLLOW MARIO'S WINNING STRATEGIES FOR VICTORY ON THE LINKS!

### WATCH THE WIND

Buads of wind miles per hour are not uncommon. Pay close attention to the wind and swing low to lessen its effect or change your stroke to compensate for it.

### ACCURACY COUNTS

As you're aiming to contact with the ball, you can hook, slice or hit a straight shot. Swing back all the way, hit it dead-on and you'll score a super shot.

### SWING FAST FOR DISTANCE

You can hit the ball with a slow, medium or fast swing. It's easier to be accurate with a slow swing, but you'll hit it further with a fast swing.

SEE THE PLAYER'S POLL DROPPED ON PAGES 82-83 TO SEE HOW YOU CAN WIN THE ULTIMATE NES OPEN PRIZE!

## STROKE PLAY

Don't expect to walk away with any cash unless you're a well-practiced player. The leader board is chock full of pros who never make mistakes. If you can make it near the top, you'll be rewarded with a six-digit purse!

## MATCH PLAY

Winning in match play is much more immediate than stroke play. It's you against just one computer-controlled golfer. Your ultimate score doesn't matter as much as whether or not you win each hole. The winner of the most holes wins the match.

## BET ON A HOLE

One important feature of match play allows you to bet on your performance against that of your opponent. You'll start on the first hole of a given course with a bet of \$500 and work up to as much as \$3,500 per hole.

## KNOW YOUR CLUBS

The table below illustrates maximum shooting distance for each club and swing speed in a good lie. If you're in the rough or the sand, or if the wind is very strong, you'll have to compensate for the conditions. Practice makes perfect!

When you hit a Super Shot off the tee in this contest, there's a good chance that you'll out-drive the others. A winning shot will give you the opportunity to choose one of three mystery purses.

Water hazards prove to be the biggest obstacles of the U.K. Course. Hole 6 is especially treacherous with a tee shot over the largest lake in the circuit.

# MISSION BRIEFING

The sleek engines of the Red October make a sound that can easily be detected by some.

Captain Marko Ramius has plotted a course through many treacherous sections of the Atlantic Ocean. His intention is to keep the Soviet Fleet from following. If they persist, he can use the Cavitation Drive and silently disappear from their sonar.

When the propellers are turned off and the Cavitation Drive is engaged, the sub is undetectable.

# SOVIET FLEET FIREPOWER

Each Aircraft Carrier houses three to four jets and/or helicopters which move very quickly and dive into the water. The Carriers themselves are not armed and cannot be harmed by the Red October.

The main offense for Destroyers are Homing Missiles. They can also drop Charges and Sonic Bombs.

The Soviet Fleet employs a great number of Alpha Class Attack Subs. They are each armed with Torpedoes.

Hydrofoils are weaker than the sturdy Destroyers, but they can more easily avoid enemy fire.

# DANGERS OF THE ATLANTIC SEASCAPE

Since Ramius chose the most dangerous route, you can expect plenty of sharp edges, deep canyons and blind alleys.

# AMERICAN ASSISTANCE

With help from Submarine Specialist Jack Ryan, the U.S. Forces have determined that Ramius plans to defect. In order to assist him and bring the Red October safely to an American Harbor, they have planted several powerful Pickups along Ramius' route. This is the only way that they will intervene.

## ★ Submarine Sails

through American Pickups to power his boat to victory over the Soviet Navy, he may soon be able to open his hatch and taste freedom.

# POWERFUL PICKUPS

By collecting a Repair Pickup, Ramius can restore the Red October to its full operational capacity, no matter how badly it has been damaged.

The Red October is first equipped with three Homing Missiles. With each Missile Pickup, Ramius can earn three more Missiles. They are very effective against quick vessels.

Each Cavitation Drive Pickup gives the Red October enough power to activate the Majestic Hydrodynamic Propulsion System and run silently for about eleven seconds.

If you're playing the part of Ramius, you'll start with three chances to pilot the Red October to victory. Collect Heart Pickups and you'll earn more chances.

# CONVOY COMMANDER

As the leader of the Soviet Atlantic Fleet, you are in control of a huge offensive force. You'll begin with 35 craft and slowly build as the Red October approaches the United States.

## OPERATIONAL ORDERS

**[1] SINK THE RED OCTOBER** **[2] SPARE NO EXPENSE**

Your objective is to do whatever you can to stop the Red October from reaching the States.

Use the entire fleet if you must. The Red October is much too important to let it get away.

## TACTICAL ADVICE

### ATTACK WITH ALPHAS

Alpha Class Subs are unstoppable. When you have a chance, run Rambo directly. You'll lose the Sub, but you'll also knock out approximately one third of his crew.

### PLAY POSSUM

Since you can control only one craft at a time and since uncontrolled craft are stationary, you may surprise the other player by staying still until the last moment. Then attack!

### GUARD PICKUPS

Pickups are too valuable to the Red October for Rambo to ignore. Make sure that you locate all of the Pickups along the route and plan your defense so that they'll be difficult to collect.

### PRACTICE AIR COMBAT

Aerial attacks from Aircraft Carriers can be quite effective if the Red October is near the surface. The Helicopters and Jets are very quick, so you'll need practice to master their moves.

If Rambo successfully negotiates the waters and eludes your forces, you'll experience defeat. Do all you can to avoid this scenario.

### USE THE TERRAIN

There are several very narrow passages in some stages. Use this to your advantage by sending your fleet in areas where you know the Red October must pass.

### WATCH YOUR ENEMY

Keep track of the Red October by dropping plenty of Radar Rings and by watching the arrow which points toward the Sub's position when you're temporarily not controlling any of your craft.

### KNOW YOUR FLEET

Study the maps of the stages and make sure that you know the starting positions of each of your craft. That knowledge will greatly assist you in planning an attack on the Sub.

### TIME YOUR ATTACKS

It's very important to attack only when it will damage the Red October the most. If, for instance, the Red October is about to collect a Repair Pickup, wait for the repair. Then call him!

# THE RED OCTOBER

As Marko Ramius, a well respected Soviet Captain, you control the Red October. It's your mission to pilot the Sub to safety and seek asylum in the United States.

## OPERATIONAL ORDERS

### 1 AVOID ALL DANGERS

You've picked a very treacherous course and the eyes of the entire Soviet Fleet are upon you. Be careful!

### 2 EXPECT NO ASSISTANCE

While the United States is providing you with Pickups, they will give you no other assistance. It's you against the fleet.

## TACTICAL ADVICE

### SEE AND DESTROY

Defeat members of the Soviet Fleet as soon as you see them, whether they're moving or not. If you don't, they may wait until you pass and then attack from behind.

### AIM FOR THE ALPHAS

Alpha Subs will try to get behind the Red October. If they do, turn around quickly and hit them with Torpedoes. You can't afford to waste Homing Missiles on every Alpha that comes along.

### CONSERVE MISSILES

Since Homing Missiles are sometimes hard to come by, you should save them for your battles with the heavy artillery. If a crash is set going, try to get close enough to hit it with torpedoes.

### COLLECT ALL PICKUPS

Pickups are too valuable to pass up. Look for their positions by watching the flashing dots on the Sensor Screen. They make your way to each one and collect them.

If you lose all at your hands, you will be greeted by defeat. Don't let this happen to you!

### THE END OF THE LINE

If you are playing a one-player game, you will face a computer controlled fleet and you will come across a huge obstacle at the end of each stage. The giant mine at the end of Stage One can be damaged only in the four Canons which point diagonally. Avoid the Missiles which come out of the Bulbs and aim for the Canons with Torpedoes.

### RUN SILENT, RUN DEEP

Your most seriously damaging opponents are the surface craft. Avoid their chances by going under natural obstacles, or by engaging the Cruiseless Drive when you're in range.

### FIRE THROUGH CRACKS

There are some places where you'll be able to aim Missiles through small openings in natural formations and, at the same time, avoid enemy fire. Use these spots to your advantage.

# NAVIGATION

## THE ROUTE OF THE RED OCTOBER

### STAGE ONE

The terrain of the first stage is not particularly difficult to get around. This area should serve as a good training ground. Watch for two very shallow passages toward the east.

### STAGE TWO

The going gets tough all the way coast of Greenland. They say that most of an iceberg is underwater and you will be able to detect it that once you've come across some of these giants of the deep.

### STAGE THREE

Now that you are south of Greenland, the terrain is much more open. If you're piloting the Red October, you're going to want to stay very deep to avoid trouble breaking on the surface.

### STAGE FOUR

The large rocks are here for more than just decoration as well be evident by the tonnage ships on the ocean floor. Other commanders have tried to sail these waters before, with disastrous results.

### STAGE FIVE

You may have very possibly discovered the lost ruins of Atlantis. The only way that you'll be able to tell anyone of your find, though, is by carrying the tip through this dangerous location.

### STAGE SIX

Most of the passages of this deep sea corridor are very narrow. Take your time in getting through them and, if you're Captain Roman, make sure to collect all of the Pickups near the end.

### STAGE SEVEN

This area of the South Atlantic looks like the underwater equivalent of the Grand Canyon. You should be able to move along fairly quickly in these wide open spaces.

### STAGE EIGHT

The final showdown is at! You're extremely close to the Florida Coast. Be very careful while steering around the oil rigging and hope that your opponent runs aground! Good luck!

# AL CHARTS

Captain Ramius is very sly. He has chosen a route that will be difficult for the Soviet Fleet to negotiate. Of course, Ramius will have to face the same dangers. Whether you control the Red October or the Soviet Fleet, you will no doubt find these maps to be indispensable.

# FORTIFIED ZONE™

## How Skilled Secret agent are you?!

Jaleco's Fortified Zone brings the world of secret agents and heroes to your Game Boy! In the dark of night, two black gliders silently float to the Earth, landing by a heavily fortified enemy stronghold. The gliders are thrown aside to reveal a commando squad. Their mission: covertly infiltrate the enemy base, find their way to the dungeon far below, and destroy it, collapsing the entire fortress!

## Simultaneous Combat!

This game from Jaleco is best played with a friend--team up to move swiftly through the maze. Or, split up, with each player racing to find the most Power-Ups and reach the maze's end. Each agent's unique skills are helpful in different areas.

### Choose the best character to clear each room.

In the two player mode, split up and scout out different sections of the maze. Each player's screen shows the room where his/her character is located. Hit the Select Button for the Overview Map to check your partner's location and all previously explored rooms.

### Vanquished agents can be brought back to life!

Death, while it may be inevitable, is not necessarily final. Should the unfortunate happen in the maze prove too much for one agent, the other player can bring his partner back into the battle. Take the fallen agent a first aid kit, and presto! The defeated soldier is now up and ready to fight again!

One agent has been overwhelmed by the enemy, but the other is still alive and fighting anyway!

Explore the maze in search of a first aid kit! Defeated enemies will sometimes drop one.

Walk back to your partner's body, and give him the first aid kit, using the Select Screen, Gamestart!

### Special Weapons

Usually, the male agent can pick up and use himself with all the special weapons and Power-Ups found in the maze. Usually, the female, can use Power-Ups but not the weapons. Use these weapons wisely!

#### Long Shot

Double your regular gun to shoot farther.

#### Power Up

Grab this to power up your normal bullets.

Flamethrower for serious "fire" power!

Velocity 3-way split fire for tight spots.

3-Way gun-pull several enemies at once.

# Stage 1: Field

Steal cautiously from room to room as you scout out the dangers of this first stage. Keep your finger on the "trigger" and be ready for trouble. Explore thoroughly—Power and Life-Ups can be discovered all over. Pick up everything, especially those valuable first aid kits!

A confrontation! You face off with a giant platoon of coppers. Dodge the barrage of bullets, and blast away to victory! Look—a key! What could it be for? Maybe one of those locked doors elsewhere in the maze ... ?

Mizuki isn't as strong as Masato, but she is quick and agile—perfect for prison marches like this! Use the A button to easily jump over them.

Collect and save all the first aid kits you can, and make sure you find all the Life-Ups! Each Life-Up adds one section to your ape's total life.

Watch out! These splint-thrust out of the floor at unwary heroes. Wait for them to sink back into the floor, then quickly run across!

# Stage 2: Jungle

The second stage looks much the same as the first. The enemies are a bit tougher though, and move a little quicker. The enemy is everywhere—be careful! Search every room in this labyrinth for all the special items, and destroy all the enemies for extra first aid kits.

Enter this room, and surprise! You're facing off with an automated jeep firing a nasty cannon. Watch out for the bullets, and don't get run over as you attack with a hasty assault of your own. Victory rewards you with a key!

Stage 2  
Guardian

When confronted with splint-thrusts in this form or short walls, Mizuki jumps and steps easily over these small obstacles, while Masato must walk around them to reach her.

These cans are easy pickings for the ape's health. By taking them out again and again, as they often have behind pedes that aid kits.

# Stage 3: Cave

Stage Three, although similar to stages One and Two, introduces several new twists. Stairs in certain rooms lead to other floors, and creatures appear that have a bizarre affect on the movements of our heroes. Some rooms are dark, containing unseen and definitely unpleasant hazards. Others have floors that move under your feet! Watch out, be cautious, and walk carefully!

## Floor 1

### Stage 3 Leader

Oh no-it's dark! To turn on the lights for split-second moments, hit the control panel on the wall. Caution: make your way over and blast away until light is restored!

Progress is slow in this room—the floor moves rapidly under your feet. Determination and persistence will get you through, but watch out for the bats!

Be careful around bats like this—each bullet hit takes feet sections off your progress (it's. Stair steps or fit their side for a "safe" spot and shoot quickly!

## Floor 2

What's going on? This corridor reversed the movements of Mizzuki and Mizuki. Mizzuki skillfully does not destroy him to return things to their normal state.

This trap is dangerous! Take care as you attack—bridge his consciousness's fire in an unexpected direction!

Mizzuki is at home in these rooms, while Mizuki finds the path labyrinthine—see Mizuki's jumping talents to negotiate the moving floor and keep effortlessly over the prison walls to relative safety! All it takes is a steady hand on the buttons.

This room is tough to clear—more and more monsters keep appearing to attack you! Move constantly, and take them out one at a time until you beat them all. As a reward for your valiant effort, you get grandest!

# Stage 4: Fortress

You've made it to the final level—the underground enemy dungeon! This labyrinth meanders and twists all over the place, with new, even tougher enemies every step of the way. Many rooms are shrouded in darkness, concealing their hidden traps—remember to use caution in feeling your way toward the control panel. Clear every room—you'll need all the special items you can find!

## Floor 1

After Musashi and Mizuki arrive at their target Wario, they show him they feel confrontation, each knowing what must be done. Victory is within reach—Good luck, Musashi and Mizuki!

Watch out for this robot's abilities—they do major damage to even the most hardy of agents. Stay in one of the top corners and fire rapidly as he approaches.

Mizuki works great here—when she first enters the room, quickly run and jump over the search wall to dispatch the incoming attacking 'roid easily.

Slide blocks fly at you from seemingly everywhere. Stay alert! Destroy them all to open the stairs to the next floor.

This room is dark, but there is an control panel! Shoot the red chest and find light! Aah... a key!

## Floor 2

Surprised? This isn't the last battle, but you must defeat a great war-droid to obtain access to the final room.

Mizuki can easily clear this route by jumping over the wall blocking her path, and then curving via its safety, avoiding the splendor. Musashi? Well, run quickly, Musashi!

A dead-end? Or is it? Look into the depths of the pit in the middle of the room. Nothing but darkness. Hehehehe... summon up your courage, take a deep breath, and JUMP!

Remember how you earned all your keys? Now's a retresher course. This row of rooms is a review of the major monsters in each level. Aww...!

# SUPER R.C. PRO-AM

If you liked R.C. Pro-Am for the NES, you'll love the super Game Boy version. Play solo, head-to-head with a friend, or use the new Four Player Adapter to connect Game Boys for three- or four-player fun. The graphics are great, the play control excellent, and

with multiple players, the competition hotter than ever. The Super R.C. Pro-Am circuit includes 24 different tracks, which become progressively challenging—for even the best of the pros.

## OBSTACLES

In Super R.C. Pro-Am, you have to watch for more than opponents' grilles in the rearview mirror. Oil slicks can send you spinning doughnuts into the wall, and if you hydroplane on standing water, you'll lose valuable time. Other obstacles to avoid are sand traps, Slow Cones, and Islands that split the track.

## POWER UP

In the high-octane world of racing, it pays to find a winning edge. Modifying your car will improve its performance. Pick up tires, batteries and other spare parts on the track and zip by the competition.

### ZIPPERS

Drive over the chevrons, or Zippers, in the corners of the tracks for a burst of speed that will leave your opponents looking at taillights. It's not always easy, but it's worth venturing slightly off course to hit them just right.

### ROLL CAGE

If you want to really rock 'n roll, you have to get the Roll Cage, which lets you crash into the wall without sustaining damage. You can also make your opponents crash by forcing them into the wall. Of course, if they have Roll Cages, they can restore the favor.

### BOMBS

When you get tired of tailgaters, blast them off your bumper by dropping bombs. The blast will take them out for a few seconds, just long enough for you to shake them. For every bomb you pick up on the track, five are added to your arsenal. Use them wisely!

### MISSILES

If you can't decide your opponents with flames or blow by them with blinding speed, break out the Missiles. It may not seem sporting, but it is effective! Fire when you're right on the tail of your target. Each Missile is good for five shots.

### AMMO

The number and type of weapons you've collected show up under "Ammo" on the screen. You'll be equipped with the last weapon you pick up, so if you're trailing the field, avoid the items and fire ahead with the Missiles. If you're leading, though, bomb challengers.

### TIRES

Good traction means good lap times, and with that! The upgrade, your traction improves. You begin with slick Spaga Tires, but you can upgrade to Rubber on Track Two and Ribs on Track Five. Later, you'll have Spikes and Logs and really bog the corners.

### BATTERIES

In Super R.C. Pro-Am, battery control acceleration. You'll start with the relatively low-voltage B battery and work up to a 12 B—that's when the high-voltage action kicks in! Burn 'em off the Bar and leave the others eating your dust.

### ENGINES

The type of Engine you use determines your top end speed. Your first Engine is Red, but you can move up to Blue by Track Two. By the time you use Engine No. 7, you'll be screaming down the straightaways at top speed. Rev it up!

## SPELL NINTENDO TO EARN A BETTER RIDE

Letters are littered across various tracks. When you spell "Nintendo," you'll be rewarded with a faster, better-handling car. You'll begin at the wheel of the zippy little Racer and, as you earn upgrades, move to the Speed Demon and finally to an ultra-hot power hog, the Spiker. It's a radical rally machine that manhandles the competition on the slickest surfaces! Your Engine is tuned for high performance—your reflexes had better be, too. To reach the final checkered flag, spell Nintendo with the Spiker.

**N I N T E N D O**

**UPGRADE**

It takes time to earn new cars, but in the meantime, you can improve your present car's handling, acceleration and top speed by changing tires, batteries and even engines.

You'll find replacements at various places on different tracks.

**RACER**

Learn control behind the wheel of the Racer. It won't hold the corners like the cars you'll earn later, but once you upgrade your tires, you can shoot by opponents on the inside line.

1

**SPEED DEMON**

After driving the better Racer for several tracks, you'll be amazed at the Speed Demon's quick handling and powerful acceleration. Put the pedal to the metal and blow them down!

**SPIKER**

You can really stick it to your opponents when you take charge of the Spiker! It's an all-terrain monster truck with the best of a high-performance roadster.

**QUALIFY FOR****THE NEXT TRACK**

A number or an arrow is displayed above your car. Numbers 1, 2 and 3 indicate the first three places; the arrow means that you're running fourth, or dead last. To qualify for the next track, you have to finish in the top three.

Congratulations! You finished first and qualified to move to the next track. Check your lap time. Did you save some points? If you picked up any parts to upgrade your car, they'll be added before the next race begins.

You are out-of-luck and the next race. You have three chances to place in the top three, or try this track again. The game is over if you don't finish first. Though, so plan your strategy before the starter begins the race.

Super R.C. Pro-Am features 24 all-new tracks, ranging from straight-forward ovals to twisting, turning tracks that truly test drivers' cornering abilities. Don't be deceived by the apparent simplicity of Track 1, which is only a single lap long. Upgrade your engine, pick up a letter, then get ready to challenge Track 2.

2

### THE LITTLE DIPPER

Track 2 is a two-lapper built for speed. Snake 'em off the line and hold the center of the track over the Zipper into the first turn to beat the pack and pick up the Roll Cage in the middle of the second straightaway. If you're alert, you can also upgrade your tires and get another letter on this track. For the best time, watch out for all spins and aim for the Zipper on the straightaways. Be aggressive in the corners to gain positive.

9

### THE SMILER

Pay attention to the arrows! Sometimes they indicate which way the track is going to turn, as they have in the past; other times, they warn that the track is going to narrow to a single lane. If you ignore them, you'll hit a dead end at top speed. Bonus! It's a jarring experience! There's a long straightaway, so if you've earned a bigger engine or the Speed Demon, you can design the speed steering road and set track racing full-bore down the stretch.

3

### GAME BOY GROOVE

Track 3 has some thingy cone walls and oil spilled everywhere. Edge the spins when you can and grab some roll cages for protection when you can't. Start on the rail and stay there until you round the first corner so you won't hit the slippery start. There's a Roll Cage in the center of the first straightaway that will come in handy after you read here too. This track takes more stamina than the first two. It's longer, and you have to complete three laps.

11

### SCREAMER'S REVENGE

Wrecked Sand Dunes cover parts of the track, and two lanes wrap around islands in the middle of the track in some places. If you try to hold the center of the track when the lanes split around an island, you'll stop as if you'd hit a brick wall. Remember where the track splits so you can avoid traffic jams by steering to a clear lane. The Sun logs you down, so drive around it when you can. When you can't, upgraded tires come in handy.

5

### DUNLOT'S DESCENT

Another three-lap challenge, Track 5 has short straightaways and hairpin turns. If you lose it on the turns and crash into the walls you'll bounce back—literally! The curves are lined with fire. When you hit them, you'll rebound back down the track and lose time and ground. Hold the inside track in the turns, and if you're pulling try to stay within firing distance. Use Missiles to blast lead cars out of your way to gain a winning spot at the finish line.

13

### BACKBRIDGE END

Slow Corners are one thing, but the Corners on Track 13 bring you to a dead stop. You can't blind them, so you'll just have to remember where they are and where you need to be in gear through an open lane without a holiday. It's one of the slowest tracks, so take the time to collect items. Speed Demon is a good car to have for Lucky 13. It has the strongest handling and dodges Corners quickly.

6

### THE KEY

The Key is two legs of eggs, greeting belts and turns. It's slow going, and valuable objects are left in hard-to-reach places that you might have to backtrack to reach. If you're slower in the corners than your opponents are, keep Missiles for your armor so that you can fire ahead from the back of the pack. If you're trailing and accidentally pick up Snake, you'll have little chance of placing in the top three.

21

### DIAMOND RUN

There aren't any tricky obstacles in Track 21, but it will test your skills to the limit. What you've learned in the previous tracks is put to the test, so you'd better be able to corner tighter, accelerate faster and memorize the course better than your competition. Of course, equipment counts, too. The other cars are not all the starting line, if they leave you there, it's all over. A jacked up Speed Demon can be more successful than an armored Spike.

## DRIVER'S TIPS

As your skills improve, tracks that once seemed tough become a cake walk. Work to improve specific skills such as effective cornering and effective use of obstacles and weapons, then check your lap times at the end of each race to see which techniques yielded faster laps. As with real racing, good technique makes the difference between the winners and the also-rans.

## DRIVER TIP #1

Be aggressive around corners. Stay in tight as you enter a turn, especially when challengers are right on your bumper. If you swing wide, they can whip around you and gain the advantage of the inside line.

## DRIVER TIP #2

Three peaky oil slicks can really ruin a good run. You'll usually fall to pieces if you hit one and slide into the wall. A good way to deal with them on straight stretches is to stay next to the wall. You'll still do a 310 when you hit one, but you won't spin out of control and crash. Instead, you'll stay right in control.

## DRIVER TIP #3

Get pushy with your opponent! Get them into deep trouble by pushing them into the Sand or Oil.

## DRIVER TIP #4

Use whatever tools you have to gain the upper hand. Get a jump on your opponents by starting them at the starting line and peeling out of them. You'll be well on your way to the first turn before they'll know what hit them.

BULLETIN  
4-PLAYER NEWS!

When we announced the introduction of new four-player games for Game Boy, it left a lot of players asking, "How in the world do you connect four Game Boys?" The answer: Our new Four-Player Adapter. It opens a whole new world of possibilities for Game Boy programmers and players, beginning with Super R.C. Pro-Am and another exciting racing game, F-1 Race. And that's just for starters!

## IT'S MORE FUN FOR FOUR

Sure, it's fun to take a computer-generated opponent, but once you've honed your skills using one, challenge your friends to a really competitive day of the races. It's a completely different experience! You can't count on them to follow the same strategies the computer used, so jockey for position becomes more intense. And before you could lay an opponent with impunity, now they can lay back!

## F-1 RACE

F-1 Race, which comes with the Game Boy Four-Player Adapter, gives you a view of the track from behind the wheel. As the pace picks up and the scenery whips by, keep your eyes on the road to avoid colliding with the other cars on the course. When those cars are piloted by your friends, they try to make the whole track a dizzying coast! All you'll need for the basic four-player fun is the Four-Player package and three friends with F-1 Race Game Pak.

SUPER R.C. PRO-AM  
SOLO SEPARATELY

Programmed by England's Race Ltd., Super R.C. Pro-Am is a great adaptation of the NES mega-hit, R.C. Pro-Am. The graphics are good and the sound outstanding—few has really captured the sounds of high-revving engines and tires trying to hold the track! Solo separately, it's a sure hit for race fans. A variety of other ideas being planned for multiple players will be available separately as well. It's the future of the Game Boy phenomenon!

## MYSTERIUM

■ FROM AGENT #214

### Quick Continue

While you're exploring the maze of the Mysterium, you have only two chances to continue. If your character is defeated a third time, you'll have to start again from the beginning of the game. Our agents have found, though, that this new beginning is slightly different than before. There's a very special item which you can find in the first passage. As you begin, take the Iron, drop it in the Pool of Fire and collect the Glass Key. Then use the Key in the door and continue along the passage. Just before you turn, you'll come across an item which was not in the passage before called the Vitriol. Collect the Vitriol and use it. It will automatically take you back to the level where you were in the previous game, with three more chances to continue!

You'll find the Vitriol in the first passage after you've been defeated and you'll start again from the beginning without resetting the game. Use it and you'll continue from where you left off.

### Level Drop

Drop deep into the maze instantly with a quick code. Call up the level map and press the B Button, the Select Button and Down on the Control Pad all at once. You'll drop to the next level!

Call up the map. Then press Select, B and Down. You'll drop instantly to the next level.

## STORY

It's another fun filled day at school for Davey. The school bully is on his case, his teachers are on the warpath and Davey keeps drifting off on imagined adventures. But are they imagined or are they real?

# COOL MOVES

## Getting Around

In each of the three areas Davey revisits—The Old West, Medieval Times and Ancient Greece—he roams about, jumps, fights and talks to people. The scenes are overhead, allowing movement in any direction, and there are many mazes and deadly dead ends.

## FIGHTING

Weapons can be assigned for both the A Button and B Button.

The B Button is where you'll assign secondary weapons and shields. These weapons are powerful but can be used up.

Your main weapon will be selected for the A Button, but you can exchange that weapon with others on the subscreen.

## JUMPING

By pushing the A and B Buttons simultaneously you'll be able to jump over fences and rocks. You can also attack enemies in the air.

You won't be able to jump over the hedges or trees. Use a head weapon like the Sword or Whip when attacking flying foes.

## Weapons & Items

In each adventure area, Davey's choice of weapons and items is different. Most of the items can be found lying about or can be taken as rewards for victory. Other powerful items are hidden or guarded by evil protectors. There are items that recover lost life energy and treacherous items that drain your power. In the Old West, the Whip is the most useful weapon. The Shotgun and Winchester are used against gang members. The sword Excalibur is the ultimate weapon in Medieval Times while the Golden Bow and Arrow brings victory in Greece.

## ARMED AND READY

Davey has a lot of tough choices to make. In battle, he'll have to choose the right weapons. Most of the enemies in each area can be defeated using a basic weapon like the Sword, but the strongest foes often require the attention of a special weapon. Listen to the people in the area for clues.

Many of the enemies can be defeated only by particular weapons, but you aren't always told in the game which weapons to use. Sometimes shields can be used as weapons, too.

## USE ITEM

Power-Ups are just one of the many types of items you'll get. Some items have startling powers like the Greek Statues that wipe out enemies.

Not all of the items are good for you. Many will take away power; the Pepperoni in the Old West, for instance, or the Green Apples in Greece.

# MEDIEVAL

In the first area, Davey finds himself in an emerald green forest full of knights and gnomes. His task is to find a Golden Lance, but first he must seek the Sword in the Stone. Finding what you need can be frustrating, so have patience and study the map below.

## 1 The Paladins

Paladin Knights in white armor await Davey throughout the forest. They tell him of treasures and quests, and also of lurking dangers.

The Paladin Knights talk of a Golden Lance and a Sword. To find both items is Davey's first quest. As you wind through the forests and woods, beware of gnomes!

## 2 The Sword In The Stone

Seek the Sword by making your way through the forest maze to the lower right hand corner. Jump over the rocks to claim the weapon.

Watch this sword for a super spinning attack! Make sure you select the Sword from the sub-screens, then try it out. Davey will spin around, cutting down any enemies within reach.

## 3 The Dark Knight

Lumper the Dark Knight guards the Golden Lance. If you have the Sword, Lumper will fall. If you don't have it, you won't pass!

Sir Lumper's bark is worse than his bite. If Davey is armed with the Sword, make sure Davey's life energy is full, then charge ahead once the Dark Knight makes the challenge.

## LUMPER

You'll be greeted by Lumper's words before you see him. He's at the end of the alley of trees to the left. When he moves, charge in using the Sword.

A few threats of the Sword should win the day. Your only worry is that you have enough energy to withstand a few hits yourself.

## THE OLD WEST

When Davey's teacher says it's time to draw, Davey moseys off to the Wild West of tumbleweeds and gunslingers. Yup, there's trouble brewing in town. An ornery outlaw is haled up in the Blacksmith Shop, challenging anyone who enters to a showdown. Davey must collect gold nuggets, snakeskins and other items to trade for money, guns, food and ammo.

### 1-2 Scout Around

See the Sheriff straightaway, then mosey on down to the Western Union Office. Next door to the Western Union is a man you should visit.

### 3-4 Bucks = Stuff

Just like today, in the Old West you had to have bucks to get stuff. Trade items for money, then buy the items and weapons you need.

### The GUNSLINGER

He's an ugly cuss and he's got a chip on his shoulder the size of a buffalo. Once you step through the door, be prepared to go for your gun. Not just any gun will do, however. Pistols don't pack enough wallop. Buy the Shotgun or Winchester and extra bullets or shells. You'll have only a few seconds to aim the tiny pointer (which is almost impossible to see) at the cylinders of the Gun-slinger's gun and pull the trigger. Keep a cool hand and practice. You'll meet this guy again.

If you wait too long, or miss your mark, the Gun-slinger will send you to Boot Hill.

Aim the star-shaped pointer at the cylinders of the Gun-slinger's pistol.

# DREAM 3

## ANCIENT GREECE

In the courtyards and temples of Mount Olympus, Davey meets gods and mythological monsters. His odyssey begins with a search for a magical shield. Then he must battle his way across the river and defeat the Cyclops. Along the way he'll encounter Eagles, Satyrs and Greek warriors. Defeat an Eagle to collect a bushel of life-restoring red apples!

### 1 to 1 Messages From The Gods

Before you can cross the bridge you must obtain the Shield from the Golden Man. The statues explain this, but they do not tell you that the Golden Man is at the far right side of the map (at location 4). Artemis and Apollo, the twin gods, will give you a Bow and Arrow in the third temple.

Take the apples inside the temples and you'll receive messages.

If you attempt to cross the bridge without the Shield, a message appears.

### 2 Shields Up

Claim the Shield from the Golden Man by the stream.

Press the B Button to activate the Shield. Press B again to block each spear as it is thrown.

Fight your way through the courtyards until you reach the stream, then follow the stream until you come to a Golden Man. Step up to him, but don't attack. He'll give you the Shield. Now return to the bridge and cross it, protecting yourself from attack with the Shield.

### The CYCLOPS

In the narrow alley where you meet the Cyclops, approach the monster quickly, fire an arrow and step back. Keep firing and retreating to defeat him.

You'll have just enough energy to use a hit and retreat strategy against the Cyclops. If you hold your ground and fight, you'll be defeated.

## DREAM 1 MEDIEVAL TIMES

Once again the Paladin Knights have a quest for Davey. He must find the sword Excalbur in a ring of stones to prove himself King. A Ring of Gold, guarded by a Blue Knight in the right hand region of the forest, is used to pass through Merlin's Mirror and reach Excalbur.

Once again the Emerald Forest is the site of Davey's quest. Wizards must be attacked by jumping and you can also use Fireballs! There is no particularly strong enemy. The Blue Knight who guards the Golden Ring is easily defeated.

## DREAM 2 ANCIENT GREECE

Cross the River Styx and enter the fiery realm of Hades to seek the Spear of Mars, the Golden Bow, and the Cap of Hades, then move on to battle Cerberus, the three-headed god of the underworld. A coin in a tree where you first enter the stage will earn you passage on Charon's riverboat.

The ground swags with tongues of flame and much of it is impassable. Trial and error is the only way to find the solid path. Attack Cerberus from the right side when he can't hit you, shooting one head at a time with the Golden Bow.

## DREAM 3 MEDIEVAL TIMES

Return again to the world of knights and wizards. In this quest Davey must venture into Winterland where the enemies are more numerous and more dangerous. Collect Firebells and lots of Life Potion. At the end you will meet Sir Lumpus again, the Dark Knight from the first dream.

Winterland is filled with wizards and fire-throwing gnomes. Try to avoid as many of these fires as possible so you avoid out the territory in the upper reaches you will find Merlin's Mirror. If Sir Lumpus begs for money, have pity on him.

## DREAM 4 THE OLD WEST

Davey The Kid is back in town, tracking down a ruthless gang of bank robbers. Talk to the Sheriff and visit Western Union, then head east to find valuable Indian Artifacts. Once the Angus Gang is defeated using your Shotgun, shoot it out with the Gunslingers at the Bank and in the Blacksmith Shop.

After the man in town tells you about Indian Artifacts, start walking to the right and downward. You'll enter a new area where defeated and rattled robbers turn into Gold Watches that restore energy. Fight the Gunslingers the same as before.

## And The Dream Goes On.....

Davey's final adventures include a trip through the Cloud World and a shootout at the OK Corral!

### Power-Go-Round

While you are playing Power Blade and fighting to free the alien-infested sectors of the city, it really pays to be prepared with a Power Suit and a Power-Up Nova. The quickest way to pick up Power-Ups is to spend some time near the beginning of Sector One. After you enter, climb up the ladder, run to the right and climb down the next ladder. You'll end up on a ledge just above the floor of the Sector. The ledge is crawling with easy-to-beat Alien Soldiers. Run back and forth and defeat the Soldiers as soon as you see them. You'll be able to Power-Up to maximum in no time with all of the items that the Soldiers leave behind. Climb down the ladder to the left, jump to the next ladder and climb to the top of the screen. Then jump off the ladder to the right and run to collect a hidden Power Suit. Return to the ledge and jump off to the left. You'll end up at the entrance to the Sector. Even after you have completed Sector One, you'll still be able to enter it at any time and take advantage of this Power-Up opportunity. The Power Suit will reappear whenever you continue the game.

Fight the Alien Soldiers and collect Power-Ups. Then climb down to advance toward the Power Suit to jump to the left and exit.

Climb to the top of the screen and jump to the right to collect the Power Suit. It'll reappear every time you continue.

## From Agent # 300 Passwords Revealed

Last issue we reported that our Agents had discovered how to change a Mega Man III Password to regulate the number of Energy Tanks that Mega Man holds. Now they have done themselves one better by cracking the entire Password code. Each position that is filled in the Password Screen signifies an accomplishment. The Red Balls in the squares are used to show the Energy Tank total and individual weapons collected. The Blue Balls are used to signify pairs of weapons collected. Learn to fill the positions correctly and you'll be able to control the accomplishments.

## Design Your Own Password

In Table 1, shown below, you can see a list of Mega Man's robot adversaries. The Password position for each enemy indicates that Mega Man has defeated that enemy. A Blue Ball takes the place of two Red Balls when a particular pair of enemies have been defeated. For instance, a Red Ball in the 4-F position shows that Spark Man has been defeated and a Red Ball in the 6-D position shows that Shadow Man has been defeated. If both of those enemies are gone, a Blue Ball in the 4-F position takes the

place of those two Red Balls to show that Mega Man has defeated both enemies.

## Energy Tank Totals

In Table 2, there are positions indicated for each possible Energy Tank total. Every Password has a Red Ball indicating one, and only one, Energy Tank total. If you want to start off with zero Energy Tanks, your Password will include a Red Ball in the 5-C position. If you want to start with nine Energy Tanks, your Password will include a Red Ball in the 6-A position.

## The Second Set

After Mega Man has defeated the eight new Robot Masters, he will return to four of the worlds. In Table 3, you can see a list of these stages and Password positions which indicate that those stages have been completed. As before, there are Red Balls to indicate individual stage completions and Blue Balls which take the place of Red Balls when pairs of stages have been completed. In order to make a valid Password for this second set of enemies, you must first fill the positions for the first eight enemies (Blue Balls in positions 4-F, 3-A, 3-D and 5-B). Study the tables and make a Password for the position that you would like to be in.

This ultimate Password takes you to the beginning of the Dr. Wily Stage.

When that screen appears, press the A Button twice, Up on the Control Pad, the B Button twice, Down on the Control Pad, the A Button once, the B Button once and then the Start Button. The game will begin and your fighter will be unaffected by enemy contact. You'll easily be able to fight to the end this way. It will look more impressive, though if your fighter has Special Weapons. Pause the game by pressing the Start Button, then press it again. Your fighter will be equipped with Lasers, Twin Missiles, the Orbiting Barrier Shield and the Hi-Density Power Protector. Plus, he'll still be invincible!

When the second screen with game information appears, press A, A, Up, B, Down, A, B and Start. Then, as you begin your adventures, pause the game and resume with a power-packed arsenal.

# CLASSIC TIPS

Here are a few our Agents' favorite tips from past issues. If you haven't caught on

to them before, you should be able to really zip through these games now.

FROM AGENT #710

## Warp Whistles

There are three Warp Whistles in Super Mario Bros. 3 which allow you to skip ahead to advanced Worlds. In World 1-3, kneel on the white background block for a few seconds. When you fall behind the scenery, run to the end of the stage and into a hidden Warp Whistle room.

In an open area of the World One Fortress, fly up and out of the screen. Then run to the right and press Up on the Control Pad to enter a room holding another Warp Whistle.

Use a Hammer in the upper-right corner of World Two and follow the path to collect the third and last Warp Whistle.

FROM AGENT #563

## Double Strength Dragon

If you're going out alone on this adventure, make sure that you have the power of two players with you. Choose the 2 Play 8 option and have your fighter defeat the other fighter. You'll receive the other fighter's players in reserve!

FROM AGENT #013

## Bonus Stage

Uncle Scrooge's bonus stage is lined with diamonds. You can get to this stage by getting a ride back to Duckburg from Launchpad when the 10,000 digit of your score is a seven (e.g. 71,382).

# PLAYING

While *Battletoads* is the big news this month, there are some other new releases which may spark your interest. In this issue's focus on games that didn't quite rate feature coverage, we look

at a great, fast-action driving game and a role-playing adventure with a long and involving story. Stop by your favorite store to see if they're up your alley.

## SUPER SPY HUNTER

Set your sights on a fleet of high-tech cars and robot enemies in the super-speed sequel to the NES and arcade hit, *Spy Hunter* from Sunsoft. The city, desert, sky, water and assorted futuristic roadways are all crawling with villainous vehicles and it's your job to make the world safe again through six super stages.

**NO PARKING ON SHOULDER!** It looks like some spy hunters have been here before.

**MERGE WITH TRAFFIC!** These road hogs will run you off the road, if you let them.

For most of the mission, your vehicle will take on the form of a custom car with machine guns on the front and on the roof. When you take to the water or

the skies, though, the car will change into a racing boat or an armored jet!

Your vehicle takes on three different forms, depending on the terrain.

Along the way, you can earn Power-Ups which give your vehicle special enemy stopping features, like oil slicks and bombs.

### • Hazards Abound

Enemy cars and planes are everywhere and the roads are littered with jumps, gaping holes and slippery ice. If you enjoy danger and thrills, this is one to look for.

# FARIA

It's an old story. An evil wizard kidnaps the princess of a mystical kingdom and you are a young adventurer who is called on to save her. The theme's been used in countless role-playing adventures and it's covered once again in Faria from Nexoft. While the story is not unique, the game does feature fun graphics and good battle scenes. If you're a role-playing fan, it's worth checking out.

Save the princess of a mystical kingdom in this long and involving adventure.

## Stock Up And Take Off

100 gold pieces for more supplies. From there, you are on your own to explore, defeat enemies and search for the princess.

Search the kingdom for the kidnapped princess.

Talk to townspeople for information.

### • Control The Battle

When you're ambushed by a group of enemies in your mission, you're sent to an enclosed area where you must fight to the finish or attempt to escape. The outcome depends on your dexterity and fighting skills. In a game that has a similar story and style to many others, this is one feature that helps set it apart.

Meet the enemies head-on and fight or run.

## HOW DO YOUR SCORES RATE?

Every month we print the best NES and Game Boy scores sent in by our readers. Are you an NES Achiever? Send in your name and address with a photo of your high score or final screen, if your score is tops, or if you're the first to finish a game, we want to know about it. All your friends will know about it too! To take the photo, turn off the lights but not the TV and use a 35mm camera without a flash. Hold the camera steady, or place the camera on a stack of books, and send us your best shot.

## ROBOCOP 2 WHERE ARE THE HIDDEN NUKE FACTORIES?

You'll know that there's a NUKE Factory in a given level if there's not enough NUKE in the main area to reach the 60% quota. The Factories take on several forms. The one thing that they have in common, though, is that they're all loaded with NUKE. Four of the first six levels have NUKE Factories.

### Level One

Fall to the left through a break in a long bridge and leap over a gap at ground level. Then, after you take care of an enemy in a manhole, press Down on the Control Pad. You'll sink into a NUKE filled area with nothing else but platforms and gaps.

Press Down after you pass the manhole to enter the NUKE factory.

### Level Three

Take a ride on the moving platform and steer between two sparking bulbs to the gap in the roof. The area that you enter will be a little

more dangerous than the last NUKE Factory. Try to avoid the gears and steer into the Jars of NUKE.

Move up between the sparking tubes to hit a hidden NUKE Factory.

### Level Four

After you negotiate a series of bridges, you'll come to a very tall stack of barrels and an equally high bridge. Jump onto this bridge and arrest the Target Villain as he hops onto the screen. Then jump to the platform directly below the bridge and jump over two gaps to the right. When you get to the long platform, press Down on the Control Pad to sink into another NUKE filled Factory.

Drop from the tall bridge to Level Four and jump to a long platform. Then sink down for a lot of NUKE.

### Level Six

Fight through Level Six until you reach two Barrals which trap a rolling enemy. Then sink down into a calibration exercise which features nothing but NUKE.

When you see the enemy caught between two barrels, press Down and descend into a NUKE only calibration exercise.

## DRAGON WARRIOR II

## WHERE IS THE PRINCESS OF MOONBROOKE?

Upon visiting the ruins of Moonbrooke Castle, you'll learn that the princess has disappeared. Talk to the living flames and they'll give you clues about her whereabouts. They'll also tell you about the mysterious Mirror of Ra. The Mirror, they'll say, is in an area southeast of Moonbrooke where four bridges meet. The location actually turns out to be due east of Moonbrooke. You'll see four bridges on the screen at the same time while standing in a small swamp. Search there and you will find the

Mirror of Ra. Then travel to Hamlin. There's a dog in Hamlin which follows you around after you try to communicate with it. Use the Mirror of Ra in the presence of the dog. It will see it's own reflection

Stand in a swamp east of Moonbrooke and use the SEARCH Command. You'll uncover the Mirror of Ra.

and magically change into the princess! With the princess as the third and final member of your party, you will be able to continue your quest to rid the land of evil.

Use the Mirror of Ra next to the dog in Hamlin. The princess will break from her spell and rejoin you.

## DRAGON WARRIOR II

## HOW CAN I MAKE SURE THAT I WIN THE LOTTERY?

Valuable items are yours for the winning in town lotteries. With a little patience you can make every ticket a win-

ner. Collect a ticket and go to a town like Hamlin, where you can both save your game and enter the lottery. Save it and try your luck at

the lottery. If you lose, just press Reset on the Control Deck and start again. You'll return with another chance to win.

Save your game and enter the lottery. If you lose, just Reset and try again with the same lottery ticket. You'll have the lottery like a lottery!

**K**rusty the Clown publicity photos are not only nifty collectors' items but they also provide Bart with extra lives. These 1-Up opportunities are plentiful in the first stage. Collect them in the beginning so that you can advance to stages where they are less abundant. We've found five of them in Stage One.

### The Theatre

The first 1-Up is above the show time schedule for the movie theatre. There's a trash can far to the left of the theatre where an alien hops left and right. Trash cans in Springfield are made of an extra flexible material so that you can get a lot of height from jumping off of them. Stand to the left of the trash can and wait for the alien to jump to the left side as well. Then, as the alien jumps to the right, jump onto the trash can by pressing the A Button, then jump off of it by pressing both the A and B Buttons. The two-button jump will provide speed, height and distance. You'll easily be able to grab the 1-Up.

Reverse off the trash can with a super high jump to grab the 1-Up above the Theatre.

### Mae's Tavern

When you make a crank call to Moe from the phone booth just outside of his tavern, the aliens to the right of the phone booth will disappear. Once you spray paint the patron wearing purple clothes who comes out of the tavern, walk to the right where the aliens used to be and stop in front of the bush. Jump by pressing and holding the A and B Buttons. A 1-Up will pop up out of the bush. Continue to hold the A and B Buttons and run to the right. You should be able to grab the 1-Up before it falls through the sidewalk.

After you call Moe and the aliens disappear, recover the 1-Up from the bush.

### Mel's Novelty Hut

After you spray paint the purple pot on the sill above Mel's door, jump onto the sill and jump to the right over a bouncing alien. Then jump two sills to a 1-Up.

Get a 1-Up from a sill above Mel's.

### On The Skateboard

While you're racing on the Skateboard and dodging aliens, you'll pass several bushes. After you collect a can of spray paint midway through the stage, jump in front of every bush that you see. A 1-Up will bounce out of one of the bushes.

### Kwik-E-Mart

Kwik-E-Mart is not just an average convenience store. It's a place where you can get a photo of Krusty the Clown worth three 1-Ups. You'll need a Rocket to retrieve it. Run to the right side of the Kwik-E-Mart sign and stop when the word "Kwik" scrolls off the screen. Move to the closest crack in the sidewalk and set up a Rocket, aiming to the left. Launch the Rocket by stepping toward the fuse. It will blast off and hit the "E" on the sign, triggering a photo of Krusty to pop out.

Aim for the "E" in the Kwik-E-Mart sign to blast out a 1-Up.

## THE SIMPSONS: BART VS. THE SPACE MUTANTS

Some of the items that you can purchase in the stores of Springfield are meant for only one specific purpose. Such is the case with the Whistle and the Key.

### The Key: Shortcut Backwards

You can purchase the Key in Tool World and use it in the door of the Springfield Retirement Home. When you open the door and enter the Home, you'll come out of Moe's Tavern. One practical use for this shortcut back to the beginning of the stage is to return to the Theatre when the timer reads 200 or 400. Since the Theatre adver-

tises showings at 2:00 and 4:00, purple-clothed people step out of the Theatre at those times. Spray paint them to achieve goals.

The Key takes you from the Retirement Home to Moe's, close to the beginning of the stage.

## WHERE DO I USE THE WHISTLE AND THE KEY?

### The Whistle: Call Grandpa

The Whistle is available at Toys 'N' Stuff. When you get to the last window of the Springfield Retirement Home, you can use the Whistle to call on Grandpa Simpson. He'll open the window and shower you with coins.

Use the Whistle at the right end of the Retirement Home to call on Grandpa Simpson.

## THE SIMPSONS: BART VS. THE SPACE MUTANTS

There are three places where you can achieve goals by launching Rockets. Make sure that you buy at least six of them from Mel's Novelty Hut.

### The Statue

A purple bird rests on the arm of Jebadiah Springfield's Statue. Stand on a crack in the Sidewalk

Score a bird from Jebadiah Springfield's Statue with a Rocket.

to the left of the Statue and set a Rocket. When it hits the Statue, the bird will fly away.

### Barney's Bowlarama

The neon sign at Barney's Bowlarama gives off a purple hue. Stand on a crack in the sidewalk to the left of the sign so that you can just see the leftmost section. Then

Hit the Bowlerama sign with a Rocket and it will tick into action.

launch a Rocket. The sign will glow red and white.

### The Retirement Home

Some of the windows of the Retirement Home are covered with purple tinted glass. Knock out the glass with a Rocket by standing from a crack in the sidewalk near the window.

First open the purple-tinted windows of the Retirement Home to achieve three separate goals.

# CELEBRITY PROFILE

— DAVID LEISURE —

As the infamous "Joe Isuzu," the outrageous liar on the popular television commercials for Isuzu cars and trucks, David Leisure might claim to be Nintendo's Champion Of The World, but when it comes to real life, he admits that "Game Boy's tough to mester."

But don't worry, David's philosophy on Nintendo's game play is much like his philosophy on life: "Nintendo is like anything else, if you set a goal and persevere, you'll succeed—even if it's difficult at first."

David should know. He grew up as a self-described "geek" and a "fat kid," tipping the scales at 220 pounds when he was 14 years old. That summer, he set a goal and lived by it, losing 80 pounds before school started. "Needless to say, the kids were amazed," he remembers. "There was a third of me missing!"

It was then that David decided to become an actor, combining his new-found confidence with the sense of humor he had developed as a defense mechanism when he was overweight. For David, discovering acting was like saving the Princess for the first time.

"When people told me I was a good actor, it was wonderful to finally be praised," he says. "For me it's acting or nothing. Besides, it's the only thing I can do."

David is also known as Charley, Richard Mulligan's annoying neighbor on NBC's hit comedy series "Empty Nest." Working on "Empty Nest" is terrific, says David. "I'm a little bit like Charley. We both appreciate a sharp, quick wit,

but I like to think I'm smarter than him. Let's face it, you've gotta be smart to play dumb."

Most of the time the "Empty Nest" crew is strictly down-to-business on the set, but sometimes David and his co-stars Richard Mulligan, Park Overall, Dinah Manoff and Kristy McNichol like to get silly. "Once in a while we moon each other through the windows," David confesses.

David began his career as a Hare Krishna on the hit movie "Airplane!" in 1979, "which was great, if you like having your head shaved for three months!" His other credits include NBC's television films "Goddess of Love," with Vanna White, and "If It's Tuesday, It Must Be Belgium," as well as ABC's "Perfect People." He also starred with Sally Kellerman and James Grodin in the feature film "You Can't Hurry Love."

David has also guest-starred on "Sledgehammer," several episodes of "Aft," Falcon Crest, "T.J. Hooker" and in an episode of "Married With Children" created just for him.

David has been playing Nintendo games for three years now. His wife, Kelly, got him started with "Super Mario Bros.," and he has since become a real "Golf" fan, which isn't surprising. "I'm what you'd call a golf-nut when it

comes to both Nintendo and real-life," admits David. "I think I have golf-sickness. I play as often as I can."

David also loves to play "Tetris" with his eleven-year-old daughter Mays. "Tetris" is great, except when Maya beats me," he jokes. "It's an excellent way to improve your hand-eye coordination and to clear your head; you just get lost in it."

When he's not busy with "Empty Nest," David devotes much of his time staying fit with golf, jogging, and his new obsession, weight-lifting or "getting pumped."

As David strives to improve his golf game on both the Nintendo video game screen and the putting green, you can bet he's well on his way to becoming Champion Of The Universe. And that's no lie!

## **BILL & TED'S EXCELLENT VIDEO GAME ADVENTURE**

Bill & Ted's Excellent Video Game Adventure puts the excellent twosome, Bill and Ted, through more triumphant time traveling. The game picks up where the first movie left off. Bill & Ted have to search through the

ages for displaced historical dudes and dudettes and return them to their proper time periods (or else the Wyld Stallions will never get their record contract and the future will be totally bogus!).

Each time period has a three-dimensional world to explore—it's

easy to get lost without a map. Besides the excellent dialogue between Bill, Ted and the people they meet, one of the highlights we found in an early version was a wild, out-of-control horseback ride.

## OVER HORIZON PAK WATCH

Over Horizon by Hot-B carries on the NES space shoot-em-up tradition with more advance-and-attack action. Before you begin, you can customize your ship's weapons and options. Your ship is small, nimble and powerful, and

can fire both forwards and backwards from the start of your mission. The graphics are colorful and wild, with multi-level foregrounds that your ship can pass in front of or behind for a real feeling of depth.

## LITTLE MERMAID

If you liked The Little Mermaid movie and enjoy lighthearted adventures, chances are you'll have fun with The Little Mermaid game from Capcom. You guide Ariel as she travels through the perilous seas and attempts to foil Ursula's newest evil scheme. Ariel can convince mean sea creatures to leave

her alone with a blast of bubbles from her powerful tail. She can also bonk the bad guys with sea

shells, and find treasures hidden in the deep. Look for the Little Mermaid this summer.

## LEGENDS OF THE DIAMOND

Banda's baseball game, starring past baseball legends, is nearing completion, and the early version we played had some cool features. The very idea of creating a

dream team from a Hall Of Fame roster is pretty hot. Each of the players has a stat information screen and different abilities

based on their real-life playing skills. Players like Babe Ruth and Ty Cobb even have their own distinctive swings and stances.

## HIGH SPEED

Tradewest is releasing Rare's follow-up to Pinbot, High Speed. Pinball aficionados will remember

High Speed as one of the top pinball machines a few years ago.

The NES High Speed game uses the same kind of play as NES Pinbot, so players familiar with that game will be right at home. Up to four players can take turns shooting, and there are plenty of targets to hit and a couple of

bonus games to find. The game also includes digitized voices.

Leading in this loose Pachinko game can save you extra balls.

The High Speed playing field will be familiar to global Veterans.

## ROCKIN' KATS

An entire world based on themes from television 'oons is yours to explore in Rockin' Kats. The feline hero's main weapon is a spring loaded boxing glove that can be used for more than delivering knock-out punches—at times it can function like an out-of-control bionic arm from Bionic Commando.

You'll pick up dollars that you can use to buy things on the Shopping Channel or to wager on a T.V. game

show Bonus Stage. You start out with four action packed channels to explore, from a city full of gangsters to a western adventure populated with desperados.

Just Around The Corner

## PIRATES!

Hoist your sails and embark for adventure on the high seas of the Spanish Main in Pirates! from Konami. Pirates! is based on the now classic PC game from Microprose and contains elements of action, strategy and role playing

games. As a pirate captain, you'll ply the waves in search of ship-borne plunder. Once you find a treasure ship, you'll have to prove your marksmanship with your ship's cannons. Then, board your prize and duel to the finish with the enemy crew.

Will you collect a king's ransom and retire in luxury in Barbados, or be sent to Davy Jones' Locker? With this, the third pirate theme NES game we've heard about (Pirates! The Hook and Peter Pan and the Pirates), you might think that pirates are going to make a comeback this year...

# GOSSIP GALORE

## THE HOOK

Sony Imagesoft (formerly CSG Imagesoft) has big plans for the video game market on Steven Spielberg's coming attraction, *The Hook* (as in Captain). The pirate adventure movie should make an excellent subject for a video game, and Sony Imagesoft is creating NES, Game Boy and Super NES titles based on it. The movie stars Julia Roberts, Robin Williams and Dustin Hoffman. With the advent of 16-bit, Sony Imagesoft is putting more emphasis on video game development and is rumored to have hired programmers from Capcom and Cinemaware.

## DEFENDERS OF DYNATRON CITY

According to Howard Phillips, Lucasarts is working on *Defenders of Dynatron City* as their next NES title after *Star Wars*. Although from the title you might think it's a sequel to *Dynowars*, it is actually a super-hero adventure game. Like other Lucasarts games, the characters will be well developed and the action should be hot. We'll let you know more as soon as we find out.

## ROBIN HOOD

Arcadia is tweaking their *Robin Hood* game to follow the summer movie release of *Robin Hood: Prince Of Thieves*, starring Kevin Costner. Arcadia's *Robin Hood* game will be one of the few items licensed to follow the movie. Arcadia also plans to create a whimsical action game based on McDonald's *McKidds* characters.

## SUPER RUMORS

As we near CES, we've heard tons of rumors about 16-bit games under development. Ocean is working *RoboCop 3*, which will combine story elements of all the movies, including *RoboCop 3*, and will also include some game elements from the arcade game. Sports fans have a lot to look forward to on the Super NES. At least five companies are working on baseball games! A couple of football and basketball titles are also in the works. *Drakkhen*, a first person perspective fantasy role playing game with smooth, fast scrolling, should make it out around the time of the Super NES release. In addition to *Railroad Tycoon*, PC titles like *Lemmings*, *F-15 Strike Eagle*, *Mech Warrior*, *SimCity*, and *Sim Earth* are also rumored to be in development for the video game market. Sony Imagesoft is planning to create 16-bit versions of their coming titles *Hudson Hawk* and *The Hook*. Capcom has some super hot titles in the works after *Final Fight*. *UN Squadron* and *Super Ghoul's 'N Ghosts* are two that should be out within a year of the Super NES's release. Asmik's first Super NES title will be called *Dimension Force*. It utilizes the Super NES "Mode Seven," which allows for realistic three dimensional scrolling. The game play will be similar to the helicopter sequence in Nintendo's *Pilotwings*. We expect lots more surprises at the Consumer Electronic Show, where the Super NES will be officially unveiled!

#### Dear Readers,

*The big news for me is that I'm leaving Nintendo Power and Nintendo of America Inc. to become Executive Producer of Video Games and Learning Products at Lucasfilm. I've been with NOA for ten great years and I'll miss it, but I'm by no means hanging up my bow tie! Moving to Lucasfilm is a great opportunity for me to pursue my interests in video game development. Since I've evaluated Game Paks at Nintendo for many years, moving on to development is a logical step that will have me more involved with video games than ever. You can keep up with what I'm doing at Lucasfilm by reading Nintendo Power. After all, it includes the best information about what's happening in the world of video games—I know that I'll keep my subscription up-to-date. I've already sent in my \$15 and my new address to make sure that I'll get the Player's Guides, too. Play hard, score high, and be excellent to each other.*
